A Compendium of Statistics on Ontario Universities

105-02074/

This is the eighth edition of the Compendium. The purpose of this Compendium is to provide consistent and accurate statistical and graphical information on the Ontario university system.

The Compendium consists of six sections:
(1) Ontario population data, (2) applicant/registrant data, (3) student data, (4) faculty and staff data, (5) financial data, and (6) physical facilities data.
Tables in each section are derived from COU reports and databases, Statistics Canada publications, and from special "runs" by the Ontario Ministry of Training, Colleges, and Universities.

The Appendix contains definitions of terms used in the Compendium.

To obtain other related information on the Ontario university system, we recommend you read our companion documents entitled **Resource Document** and **Compendium of Statistical & Financial Information**.

NOTE: The population projections reported in this table are based on an earlier report than that reported on Table 1.1. As of printing of this publication, revised population projection data was not available by county.

According to Statistics Canada, ages 18 to 21 represent the age range of the undergraduate student population; and ages 22 to 24 represent the age range of the graduate student population.

Section 2:

Applicant / Registrant Data

This section provides information on applicants and registrants to the Ontario university system, as well as average marks of students who were registered in secondary school in the previous year.

The data for this section is provided by the Ontario Universities Application Centre (OUAC). Only those applicants to first year undergraduate programs are included. Therefore, students applying for advanced standing, second entry programs (those programs where students are not admitted directly from secondary school), and graduate studies are excluded from these statistics.

Student Data

This section provides information on full- and part-time student enrolment (including international students), applicants and registrants to teacher education and medical programs, degrees awarded, student / faculty ratios and employment rates and average salaries for graduates employed full-time.

Please note that using headcount enrolment could be misleading. Definitions of full-time and part-time enrolment are not consistent among universities.

Commencing in 1998-99, a new set of guidelines and reporting forms were developed. As a result, there were some changes to definitions. Operational Supplies & Expenses includes expenses formerly reported under Cost of Goods Sold, Municipal Taxes, and Miscellaneous. Travel is a new category that was previously reported under Miscellaneous. "Buildings" is included under Land and Site Services.

[2] Commencing with the 2000-01 report, Printing and Duplicating, Materials and Supplies, Communications and Professional Fees were listed separately. For the purpose of this report, they are included under Operational Supplies & Expenses.

[3] Commencing with the 2000-01 report, Debt Repayments and Interest were listed separately. For the purpose of this report, they are included under Principal and Interest Repayment.

Totals do not sum due to rounding.

[1] Includes purchase, rental and maintenance of equipment & furniture.

Commencing in 1998-99, a new set of guidelines and reporting forms were developed. As a result, there were some changes to definitions. Operational Supplies & Expenses includes expenses formerly reported under Cost of Goods Sold, Municipal Taxes, and Miscellaneous. Travel is a new category that was previously reported under Miscellaneous. "Buildings" is included under Land and Site Services.

[2] Commencing with the 2000-01 report, Printing and Duplicating, Materials and Supplies, Communications and Professional Fees were listed separately. For the purpose of this report, they are included under Operational Supplies & Expenses.

[3] Commencing with the 2000-01 report, Debt Repayments and Interest were listed separately. For the purpose of this report, they are included under Principal and Interest Repayment.

1996-97: Commencing in 1996-97, a university may set the tuition fee for any program at up to 133% of the formula fee for that program, provided that the university's tuition fees on average do not exceed 123% of its formula fees. With very few exceptions, tuition fees set by universities for 1996-97 approximate 123% of the formula fees. In addition, universities are required to set aside at least 10% of any increase over 1995-96 fee revenues for financial assistance for needy students.

1997-98: Fees for a program can be no more than 120% of the fee charged in 1996-97. The fee average for an institution may not exceed 135.3% of formula fee average. In addition, 30% of the tuition fee increase will be set aside for tuition reinvestment in student assistance.

1998-99 and 1999-00: The maximum average tuition fee increase for most university programs will be 5% for improving the quality of students' programs and 5% to invest in additional educational program improvements. In addition, 30% of the tuition fee increase will be set aside for tuition reinvestment in student assistance.

2000-01: The total maximum average tuition fee increase for most university programs for the next five years will be 10% over the maximum average fee for 199-00. During this period, universities may increase fees to a level no more than 2% above the maximum average fee for the previous year. In addition, 30% of the tuition fee increase will be set aside for tuition reinvestment in student assistance.

Commencing in 1998-99, the Ontario government introduced additional cost recovery programs (ACRP): Business/Commerce (2nd entry), Dentistry, Law, Medicine, Optometry, Pharmacy and Veterinary Medicine. In 1999-00, Engineering and Computer Science were added in conjunction with ATOP (Access to Opportunities Program).

* Fees exclude ancillary fees (eg. residence and student government).
** Excludes McMaster's medicine fees in levels 1 and 2 ($5,601 in 1996-97 and $6,720 in 1997-98)

Appendix

Glossary of Terms and Definitions.

APPENDIX: GLOSSARY OF TERMS AND DEFINITIONS

APPLICANTS
Persons who are applying for fall entry into full-time study in first year at an Ontario university.

APPLICANTS - SECONDARY SCHOOL
Secondary school applicants refer to those applicants who were registered during the previous academic year as full-time day students in the OAC year at an Ontario secondary school.

APPLICANTS - NON-SECONDARY SCHOOL
Non-secondary applicants refer to those applicants who were *NOT* "secondary school" applicants, as defined above.

APPLICANTS - REGISTERED
Applicants who subsequently registered at an Ontario university.

FEES

(A) FORMULA
Standard fees established by the government of Ontario. Fees vary by program and level.

(B) GOVERNMENT REGULATED TUITION FEES
The government introduced a provision in 1980-81 allowing institutions to set tuition fee rates of up to 110% of the standard tuition fee rates without reduction in operating grants. This provision was amended for 1987-88, as a result of changes in policy governing ancillary fee structures, providing for tuition fee rates of up to 113% of the standard fee rates. For tuition fee policies commencing in 1996-97, see Table 5.3.2.

(C) INTERNATIONAL STUDENT FEES
Up to and including 1995-96, international students were charged government-regulated additional fees, over and above the rate for domestic students. The rate charged is dependent on the program in which the international student is registered. Fees vary by program and level.

Commencing in 1996-97, international student fees are deregulated and universities are allowed to set their own fee levels for international students. For further details, please see Table 5.3.3.

FORMULA SPACE
Formula space is usable or assignable space for which space standards could normally be developed. The formula categories provide for the full range of functions and services needed in a contemporary university.

Formula space excludes residence, health care facilities, animal space, day care facilities and non-assignable space (corridors, washroom facilities, mechanical areas, etc.).

FTE ENROLMENT
Full-time equivalent enrolment equals part-time enrolment divided by 3.5 plus full-time enrolment.

FTE FACULTY
Full-time equivalent of faculty at Ontario institutions.

FTE NON-ACADEMIC STAFF
Full-time equivalent of non-academic staff. Positions which are full-time for 8 months would be counted as 0.67. Half-time positions for 12 months would be counted as 0.50.

The reported data are for those non-academic staff paid from operating funds. Non-academic staff refers to non-instructional (support) staff including among others; technicians, clerical and secretarial, professional and managerial, janitorial, trades and maintenance.

FTE Part-Time Faculty

Full-time equivalent of part-time faculty. This figure is derived by dividing the average salary figure of tenure stream and limited term faculty by the total part-time salary bill.

Object of Expense

For a more precise definition of the categories employed, please see *Financial Report of Ontario Universities.* pages 14 - 17.

Operating Grants (Basic)

Basic Operating Grants equals Basic Operating Income (BOI) less Formula Fees. *(BOI is generated by multiplying the Basic Income Unit (BIU) count (FTE count x program weight) by the BIU value.)*

Operating Grants (Total)

Total Operating Grants includes Basic Operating Grants plus a number of "envelopes" including: pay equity, accessibility fund, performance fund, research overhead/infrastructure, enhanced access for disabled, mission related, fair funding, institution specific grants, special purpose grants, ministry initiatives & contingency, Ontario graduate scholarships in science & technology, access to opportunities program, and budget initiatives.

Rank

This element reports the staff member's current academic rank.
- Rank Below Assistants-
lecturers, instructors and teachers with comparable faculty status.
- Rank Below Preceding -
teachers below the rank of lecturer or equivalent.
- Other Teaching Staff-
ungraded staff.

Source of Fund

For a more precise definition of the categories employed, please see *Financial Report of Ontario Universities.* pages 8 – 10.

Statistics Canada Reporting

Listing of Institutions Included
Where applicable, the figures include medical/dental staff.
Brock University, Carleton University, University of Guelph, Lakehead University, Laurentian University, Algoma University College, Nipissing University, McMaster University, University of Ottawa, Universite St. Paul, Queen's University, Ryerson Polytechnic University, University of Toronto, O.I.S.E./UT, University of St. Michael's College, University of Trinity College, Victoria University, Trent University, University of Waterloo, University of St. Jerome's College, University of Western Ontario, Huron College, King's College, Wilfrid Laurier University, University of Windsor, and York University.

Explanation of Statistics Canada Reporting Format
Statistics Canada will not release information for any institution that has less than 25 full-time teaching staff.
The Statistics Canada survey includes only full-time staff that have a teaching assignment, are under contract for a period of four months or more, and have a 12 month appointment.

Explanation of Statistics Canada's Rounding Policy
Because of the provisions of the Statistics Act concerning confidentiality of individual responses, information is processed in such a way that the mean is not shown when the given rank contains less than six (6) people. Similarly, average salaries are not calculated when the frequency is too small to be statistically significant.

Type of Fund

For a more precise definition of the categories employed, please see *Financial Report of Ontario Universities.* pages 6 - 7.
